Before You Begin.

Most business audits collect dust because they're too vague to act on. This one is different. Every section forces a specific answer, a specific number, or a specific decision. Work through it honestly and you will walk away knowing exactly what to fix and in what order.

01**SET 2 HOURS ASIDE**

This is not a quick exercise. Block uninterrupted time. A half-done audit is worse than no audit — you'll act on incomplete data.

02**USE REAL NUMBERS**

Gut feelings don't build businesses. Pull your actual revenue data, your actual conversion rates, your actual expenses. Approximate only when exact figures aren't available.

03**RATE RUTHLESSLY**

A score of 7/10 is a comfortable lie. If something is underperforming, score it as underperforming. The gap between where you score yourself and where you actually are is where revenue is leaking.

04**INVOLVE YOUR TEAM**

If you have a team, have them complete their sections independently before comparing. Discrepancies between owner perception and team reality are always the most revealing findings.

05**ACT ON THE OUTPUT**

An audit that doesn't result in changed behavior is a journal entry, not a strategy. The Priority Action Matrix in Section 04 must produce at least 3 concrete actions with deadlines.

THE ASSET DISTRICT STANDARD:

*"Your business will perform exactly as well as you understand it.
This audit forces understanding. What you do with it is up to you."*
— Katarina Raskovic

SECTION 01

Business Snapshot

A ruthlessly honest baseline. No strategy works without this.

CURRENT STATE — Fill in every field. Estimates only if exact data unavailable.

YOUR BUSINESS IN ONE SENTENCE — What it actually is today (not what you want it to be):

BUSINESS AGE

Years operating

TOTAL TEAM SIZE

FT + PT + freelance

BUSINESS STRUCTURE

Solo / Partnership / Ltd

PRIMARY REVENUE MODEL

Service / Product / Both

AVERAGE TRANSACTION VALUE

Mean sale amount (\$)

MONTHLY ACTIVE CLIENTS

Paying clients right now

REVENUE & OFFER OVERVIEW

OFFER / SERVICE NAME	TARGET CLIENT	PRICE	MONTHLY SALES	MONTHLY REV.	% OF TOTAL REV.

YOUR KEY NUMBERS — The ones that tell the real story

MONTHLY RECURRING REVENUE (MRR)

\$

What reliably hits every month

AVERAGE CLIENT LIFETIME VALUE

\$

Total value per client relationship

LEAD-TO-CLIENT CONVERSION RATE

%

Of leads that become paying clients

BIGGEST SINGLE REVENUE MONTH

\$

Your best month ever — and when

THE ONE THING HOLDING THIS BUSINESS BACK RIGHT NOW:

If you could only fix one thing this quarter, what would it be? Be specific.

SECTION 02

Revenue Gap Analysis

Find every dollar your business is leaving on the table. Be precise.

Revenue gaps are not random — they follow patterns. Every business leaks money in predictable places. This section forces you to look at each one directly.

GAP 01 · PRICING GAP

Most founders are undercharging. Not slightly — significantly. This gap finds out by how much.

When did you last raise your prices?

Most founders haven't raised prices in 12+ months despite inflation, skill growth, and higher demand.

What do your top 3 competitors charge for the same outcome?

Fill in competitor pricing — not their packages, their outcomes.

If you raised prices by 20%, how many clients would you lose?

If the answer is 'none' or 'maybe 1-2', your prices are too low.

PRICING GAP CALCULATOR

A CURRENT MONTHLY REV.
Your current MRR (\$)

B REV. AT +20% PRICE
= $MRR \times 1.20$ (\$)

C ANNUAL PRICING GAP
= $(B - A) \times 12$ (\$)

← This is your annual pricing leak

GAP 02 · CONVERSION GAP

Leads you're already generating but failing to convert into paying clients.

STAGE	# THIS MONTH	# LAST MONTH	CONVERSION RATE	INDUSTRY BENCHMARK	YOUR GAP
Leads / Inquiries	—	—	100% (baseline)		
Discovery Calls Booked	—	—	20–40% of leads		
Proposals Sent	—	—	60–80% of calls		
Proposals Accepted	—	—	30–60% of proposals		
Repeat / Referral Clients	—	—	40–70% of clients		

CONVERSION TRUTH:

"If your discovery-to-proposal rate is below 60%, your positioning is the problem.
If your proposal-to-close rate is below 30%, your pricing or follow-up is the problem."

Asset District · Katarina Raskovic · assetdistrict.com · @asset.district

GAP 03 · RETENTION & LIFETIME VALUE GAP

The most expensive thing you do is acquire a client — then lose them after one transaction.

What % of your clients return for a second purchase / engagement?

What is your average client relationship length in months?

Do you have a formal offboarding or re-engagement process? Describe it.

What would it take to double your average client lifetime value?

GAP 04 · OPERATIONAL LEAKAGE POINTS

Money leaving the business that doesn't need to. Check every box that applies to you.

☐ Subscriptions / tools you're paying for but not actively using	COST LEAK
☐ Team time spent on tasks that could be automated or outsourced	TIME LEAK
☐ Scope creep — delivering more than contracted without charging	REVENUE LEAK
☐ Discounting to close deals instead of improving your positioning	REVENUE LEAK
☐ Following up on unpaid invoices manually (no automated system)	CASH FLOW LEAK
☐ No upsell / cross-sell path after initial client purchase	OPPORTUNITY LEAK
☐ Spending time on low-value clients while high-value leads wait	FOCUS LEAK
☐ No referral system — relying on organic word of mouth only	GROWTH LEAK

ESTIMATED TOTAL MONTHLY REVENUE LEAKAGE

Add up all the gaps you've identified above. This is money already in your ecosystem — just not reaching you.

PRICING GAP (monthly)

CONVERSION GAP (monthly)
\$

RETENTION GAP (monthly)
\$

SECTION 03

Operations Scorecard

Rate every part of your business machine. Honesty over comfort.

Rate each area 1–10. Circle or write your score. Then identify the one action that would move it +2 points.

1-3

CRITICAL — Fix immediately

4-6

NEEDS WORK — Schedule improvement

7-8

FUNCTIONAL — Optimize when possible

9-10

EXCELLENT — Maintain and leverage

REVENUE & SALES

SECTION 04

Priority Action Matrix

What to fix first, what to schedule, what to eliminate entirely.

This matrix prevents the most common mistake after an audit: trying to fix everything at once and fixing nothing. Every finding goes into one of four quadrants. Only the top-right quadrant gets your attention this quarter.

HIGH IMPACT · LOW EFFORT
DO FIRST

Quick wins that change your numbers immediately.

EXAMPLES FROM THIS AUDIT:

- Fix underpricing on core offer
- Implement weekly KPI review
- Add upsell to checkout / close

YOUR ITEMS FOR THIS QUADRANT:

HIGH IMPACT · HIGH EFFORT
PLAN & SCHEDULE

Strategic investments worth your time when resourced properly.

EXAMPLES FROM THIS AUDIT:

- Build automated lead nurture
- Develop premium service tier
- Hire or outsource key function

YOUR ITEMS FOR THIS QUADRANT:

LOW IMPACT · LOW EFFORT
BATCH OR DELEGATE

Do it, but don't let it touch your A-time.

EXAMPLES FROM THIS AUDIT:

- Social media scheduling
- Email template creation
- Admin process documentation

YOUR ITEMS FOR THIS QUADRANT:

LOW IMPACT · HIGH EFFORT
ELIMINATE NOW

These are stealing time and energy from your real priorities.

EXAMPLES FROM THIS AUDIT:

- Chasing dead-end leads
- Low-margin time-heavy clients
- Manual tasks with no leverage

YOUR ITEMS FOR THIS QUADRANT:

YOUR CONSOLIDATED TOP 10 ACTIONS — From all sections of this audit

SECTION 05

90-Day Recovery Plan

Diagnosis means nothing without execution. This is your plan.

You've done the audit. You know where the gaps are. Now you build the plan that closes them.

MONTH 1

STOP THE BLEEDING

Fix the critical issues — the ones costing you money right now.

REVENUE ACTION: Raise prices or close the most urgent conversion gap 	OPERATIONS FIX: Eliminate your highest-cost operational leak
QUICK WIN: One action this week that produces revenue 	METRIC TO MOVE: The one KPI you will track daily this month
WHAT MUST THIS MONTH ACHIEVE FOR THE AUDIT TO BE WORTH IT? 	

MONTH 2

BUILD THE FOUNDATION

Implement systems so the same problems don't return.

SYSTEM TO BUILD: Automate or process your weakest area 	POSITIONING MOVE: Clarify, sharpen or reposition one offer
PIPELINE ACTION: Build or strengthen your lead generation 	METRIC TO MOVE: Conversion rate or lead volume target
WHAT MUST THIS MONTH ACHIEVE FOR THE AUDIT TO BE WORTH IT? 	

MONTH 3

SCALE WHAT WORKS

Double down on what the first 60 days proved is working.

REVENUE LEVER: Upsell, expand or re-engage existing clients 	GROWTH ACTION: Referral, partnership or visibility push
DELEGATION: One task you stop doing yourself this month 	METRIC TO MOVE: Revenue or profitability target for month 3
WHAT MUST THIS MONTH ACHIEVE FOR THE AUDIT TO BE WORTH IT? 	

MY COMMITMENT TO THIS PLAN

I will review this audit in 30 days. The first action I will take is:
I will complete it by: and I will share this plan with:

Your Audit at a Glance.

Complete this after finishing all sections. This becomes your strategic dashboard — review monthly.

CATEGORY SCORECARD SUMMARY
